As Serbia's **first national research institute of significance**, IPB leads in international collaboration, researcher mobility, and participation in competitive projects.

Its mandate encompasses **fundamental science, interdisciplinary collaboration, technology transfer**, and maintaining essential national services and infrastructure.

IPB has been instrumental in Serbia's entry into CERN, **hosting the Serbia-CERN Industrial Liaison Office** and participating in multiple CERN collaborations, including ATLAS and SHIP.

Institute of Physics Belgrade

Your Horizon Europe partner in:

- ✓ Scientific research projects
- ✓ Innovation projects
- ✓ Research & Innovation boosting support projects
